EDUCATION

BS Software Engineering — University of Management and Technology (UMT) *2024 – Present*
Lahore

Intermediate — FSc Pre-Engineering *Completed 2023*
Punjab Group of Colleges, Main Campus Lahore

Matriculation *Completed 2021*
Pak Crescent Model School, Lahore

PROJECTS

Student Mini Portal *Computer Organization & Assembly Language | emu8086 / x86*

- ▶ Built a console-based student mini portal in x86 Assembly on emu8086 featuring student registration with name and roll number input, and marks calculation with multi-digit total display using loop-based string routines
- ▶ Implemented marks entry and multi-digit total calculation using DIV-based arithmetic routines with correct display of two-digit and three-digit results
- ▶ Designed modular procedures for input/output handling and applied low-level memory and register management techniques throughout the program

University Portal *Data Structures*

- ▶ Developed a university portal leveraging data structures for efficient student and course record management
- ▶ Implemented search, insert, and delete operations for streamlined information retrieval

Inventory Management System *Programming Fundamentals*

- ▶ Built a console-based application to manage product stock with add, update, delete, and search features
- ▶ Applied structured programming principles to ensure modular and maintainable code design

Car Parking Management System *Digital Logic Design*

- ▶ Designed a logic-based parking management system using combinational and sequential digital circuits
- ▶ Implemented slot availability detection and entry/exit control mechanisms

CERTIFICATIONS

SKILLS

Networking: OSI & TCP/IP Models, IP Addressing & Subnetting, VLANs (Intra & Inter), Routing (RIP, OSPF), DHCP, DNS, NAT/PAT, ACLs, STP, Cisco Packet Tracer, Cisco IOS CLI

Web Development: HTML, CSS, JavaScript, Bootstrap, PHP

Programming: Object-Oriented Programming (OOP), Data Structures, Assembly Language (emu8086 / x86)

Database: SQL, Database Design, ER Diagrams, Data Flow Diagrams (DFDs)

Mathematics: Calculus I & II, Linear Algebra, Probability & Statistics, Discrete Structures

Engineering & SE: Software Engineering, Software Requirement Engineering, Digital Logic Design

Professional: Professional Practices, Principles of Management, Technical Communication
